

## Extended Spindle

**Manual Mechanical Control (MMC)**

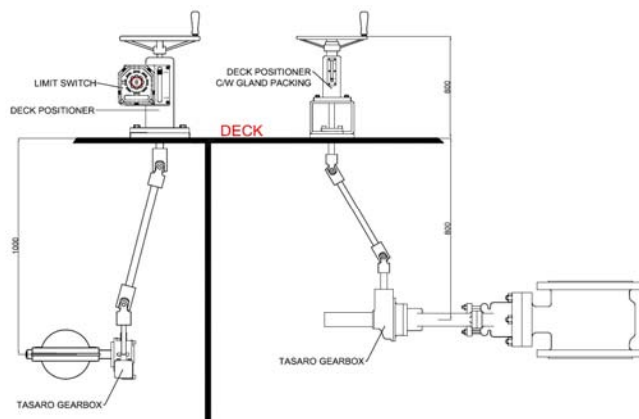

**Stand Alone Redundancy System**

### Key Features

- Cost-effective solution for short-distance valve control
- Single point of failure does not spread to other valves
- Weather-proof construction with rugged coating system
- Water-tight sealing for prolonged submersion
- Valve position indication – local & remote feedback
- Low operating torque due to ample bearing support
- Work with quarter & multi-turn valves
